Phil A. Bennett
For Congress
Age 41 years.
Born and grew up on a Dallas County farm.
Married and has two children.
Educated in rural school, Buffalo High School, Springfield Normal School and business College.
Taught school two years.
Edited Buffalo Reflex 17 years.
Chairman Republican County Committee of Dallas County 8 years.
Congressional chairman, 16th district 2 years.
Member Republican State Committee, 16th district 2 years.
Elected State Senator, 19th district, in 1920 (his first candidacy) by majority of 15,623.
Served as chairman of two committees and member of seven other senate committees.
Legislative work endorsed by all classes, especially farmers.
Only native of district asking for nomination.

Why not nominate a man who is young and active? (His opponent is 73). Why not support a man who has had some legislative experience and who since boyhood has sacrificed personal interests for the welfare of his party and state?
Think it over. He can win in November.
Your help will be appreciated.

Radio at Cabool
The Cabool Area club has received nearly all of its outfit and the aerial poles were raised and work started on the aero wires today. It will be but a short time now until Cabool will be receiving radio concerts and reports from all over the world. The delay in receiving this machine was due to the fact that the demand has been so great that the manufacturers have been unable to supply the demand for large sets such as that ordered by the business men and women of Cabool.
The parts that have not yet arrived are promised, however, within the next few days and we hope to be able to announce that radio concerts are a reality in Cabool within the next week.—Cabool Enterprise Press

Local Colored Nine Beaten by Ava Team.
The Ava baseball team defeated a colored nine from here last Sunday at Ava by the score of 19 to 3. Leslie "Cotton" Strong pitched for Ava and struck out 19 men. Strong's home is in Mansfield. He has the reputation of being one of the best southpaw pitchers in the Ozarks.—Springfield Republican.

While we did not see this game it is said by those who did see it, that Cotton Strong pitched a wonderful game, and that the Ava team was well pleased with his work; also that the local "fans" there were completely "carried away" with his crooked ball and the speed he put in it.

Recommends Chamberlain's Tablets.
"Chamberlain's Tablets have been used by my husband and myself off and on for the past five years. When my husband goes away from home he always takes a bottle along with him. Whenever I have that heavy feeling after eating, or feel dull and played out, I take one or two of Chamberlain's Tablets and they fix me up fine," writes Mrs. Newton Vreeland, Minoa, N. Y. Takes these tablets when troubled with constipation or indigestion and they will do you good.

Two Cents or Nine?
This week a breeder of Hereford cattle here in the Ozarks shipped a carload of whiteface yearling steers to Kansas City, which he had raised and fed himself. They sold for \$9.35 a hundred, weighed better than 1000 pounds and brought within a few cents of \$100. apiece. On the same day these cattle brought such a good price, a couple of carloads of native Arkansas steers were in adjoining pens. They were two years old, weighed 600 lbs. and sold for two cents or barely enough to pay freight charges.

It so happens that the man who bred and fed this carload of Hereford steers is a regular exhibitor at the Ozark Stock Show, and a man who not only believes in better cattle, but is practicing what he preaches.

In order to make available better blood and make it possible for every man to make similar profits, the Ozark Stock Show is held each year by breeders and believers in better livestock in our part of the country. Every man who has faith in better livestock owes to the Stock Show his support by attending it. The man who does not believe in better livestock owes it to himself to attend, see wherein he could increase his profits and exactly what it would cost him to begin producing nine cent steers instead of two cent steers.

The Ozark Stock Show will be held this year October 2 to 7th. For particulars write: H. Nelson, Mgr. (2 rk Stock Show, Room 3 Jefferson Theatre Building, Springfield, Mo.)

The Home of The Soul.
In olden times it was believed that the seat of the soul was the stomach, most likely for the reason that a man is never so completely used up as when his stomach is out of order. For the cure of ordinary stomach troubles, there is nothing quite so prompt and satisfactory as Chamberlain's Tablets. They strengthen the stomach and enable it to perform its functions naturally. Give them a trial. They only cost a quarter.

Poultry Raising In The Ozarks
Missouri, and especially the Ozark region, is peculiarly adapted to poultry raising. In our moderate winter, abundance of shade and running water, we find the ideal condition for producing poultry and eggs.

It is surprising how the Ozark section is developing along poultry lines. However, the development is by localities and not very general. This is due in part to adverse conditions in towns some distance from a railroad. To many farmers these conditions seem unchangeable, but it need handicap no one who is interested in raising poultry.

It simply means that more care must be taken in handling poultry products—and better quality of eggs must be marketed in order that they may make the more distant markets in good condition. The farmers pay the loss on all poor quality eggs marketed.

Everyone in the Ozarks should produce fertile eggs at this time, and the crow of the rooster should never be heard echoing through the Ozark valleys or elsewhere from June 1st until September or later.

Mr. Noel Hall, who is now connected with the Missouri State Marketing Bureau, has just completed a trip through the Ozarks in the interest of better poultry, and he is responsible for the practical statement that the Ozarks is the coming poultry section of Missouri.

The quality of chickens generally found in the hills of Southern Missouri is not so good as it should be. The mongrel too of ten reigns supreme and his mate is too often found roaming in the underbrush picking up what food she can find, producing about one half the number of eggs she should lay to make profit for her owner.

But there are many localities which are highly developed in poultry. For instance, Springfield is one of the very best centers for standard-bred poultry in this state. Also, many good flocks are to be found in Hickory county and many other Ozark communities.

Much interest is being taken in Douglas county. Through the co operation of the Vocational Agriculture teacher at Ava, many White Leghorns have been brought into that territory.

It is being shown conclusively that good poultry, properly fed and housed, will profit anywhere in the Ozarks, even though the owner is fifteen or twenty miles from a railroad. Then, too, good highways will soon cover that entire section—and it will be only a matter of minutes getting farm products to a railroad station.

The greatest apparent need of the poultry raisers in the Ozarks today is better chickens—more profitable hens. Everyone should get some pure bred chickens of his or her favorite breed and variety, and take good care of them. The climate is very favorable but good houses are necessary if the maximum profit is expected. Then, if plenty of good feed is supplied, the Ozarks will be one of the greatest poultry sections in the state.

Why Suffer From Rheumatism.
Do you know that nine out of every ten cases of rheumatism are simply rheumatism of the muscles or chronic rheumatism, neither of which require any internal treatment? The pain may be relieved by applying Chamberlain's Liniment, which makes sleep and rest possible, and that certainly means a great deal to any one afflicted with rheumatism.
